NEW CONSTRUCTION PROJECTS At the shelter for adolescent young men

THE KITCHEN / DINING HALL CONSTRUCTION

in the adolescent young women's shelter.

The inauguration of the kitchen / dining hall at the girls' shelter.

"...and whoever sows generously will also reap generously"

2 Corinthians 9:6

To complete this project, the Miller family unveiled the recognition plaque on behalf of ASCRIGERE.

The donation from this wonderful family, and friends, of our ministry will support hundreds of the ministry's young adolescent women. May God bless them abundantly.

The building consists of a spacious dining hall, two kitchens, a food pantry and a room for the cooks. Having been quite the challenge we thank God in His great loyalty that we were able to joyously inaugurate the building alongside all of the young women and our ministry's team on August 31st 2014.

IMPROVEMENTS TO THE SHELTER; A HOME FOR ADOLESCENT YOUNG WOMEN

Painting the shelter's rooms

The sidewalks were improved at the adolescent young women's shelter.

Building maintenance and installations represent a significant portion of the budget. Because of God's glory and thanks to the support of the ministry's friends we have been able to meet the budget at this shelter this year, 2014. We invite you to support us in order to continue to cover this important and necessary area.

Another room was built in the adolescent young women's shelter.

Improvements to the agricultural plantation

Our decision to take advantage of every square meter that God has given us has been a productive one, benefitting from construction.

On this land, we have carried out work with heavy machinery and have subsequently planted 200 types of fruit trees that within three years will grow the much needed fruit.

Organic agriculture

Production of food with organic fertilizer is an organizational goal. The preparation of compost and worms with this goal in mind has allowed us to raise the quality of the products harvested.

The egg farm doubles its egg-laying hen population

We give glory to God this year for the great demand for organic eggs. We have had to double the population of egg laying hens in order to obtain a number that meets our needs.

We were able to meet this goal thanks to a donation that identifies with our food security project.

For the year 2015 we need to replace a brood of 200 hens that have already completed their productive cycle. We pray to Our Father that the resources meant for this purpose will arrive.

The group of kids and adolescents that form part of this discipleship have been distinguished by an admirable commitment on their part and on that of their parents, a commitment which not only includes weekly meetings but also carrying out monthly family activities and participation in workshops for parents throughout the week.

Disciples in action

Boys and girls, ranging from recently born to about 12 years old, adolescents and parents from Los Guido, Sagrada Familia, Tibás, Paso Ancho, Tres Ríos, Heredia, Barrio México (among other communities) attend on Saturdays to participate in a program integral to preventative family practices.

Then Jesus came to them and said, “All authority in heaven and on earth has been given to me. Therefore go and make disciples of all nations, baptizing them in the name of the Father and of the Son and of the Holy Spirit, and teaching them to obey everything I have commanded you. And surely I am with you always, to the very end of the age.”
