LICEO SAN JOSE,  
BARRIO MEXICO  
DECEMBER 19th, 2015

Party for 278 children that live in around the Libano's red zone.

Red Zones are places that are shown a very advanced social deterioration. Children who live in these places are shown a very high vulnerability

As part of the parties, children enjoyed doing handicrafts, in groups according to their ages.

A well identified 35 people team was in charge of the attention of the children during the party.

A special thanks to "Junta Administrativa del Liceo de San Jose", for the facilitation of the Christmas party place.

The joy of the children was astonishing.

A precious girl around 8 years old, came to us at the end of the party and with those beautiful and full of light eyes, thanked us and said: "this is the happiest day in my life"  
What a priceless reward!

God's glory for all these!

This personalized gift, contains clothes, toys and even shoes in some of them, is also a relief for the parents or in charges of the children. There are a lot of testimonies stating that it is the only Christmas gift.

## COMMUNITY IN POCOCI, LIMON

Artist and teacher Ana Maria Granados, delighted everybody in this beautiful party, with her Storyteller participation, in which she transmitted a strong message full of prolife and family values.

The whole family came to this beautiful place to share in a day full of good news that fed the soul and spirit and beautiful presents in a healthy way, showing God's love, who was the one that gave us the biggest gift of the world: Jesus Christ his son, and today 2 million years after keeps moving hearts to unite with other siblings.

games, piñatas,
